This is an immensely readable book: I devoured it in one sitting. The narrative is pacy and well-written, its central character Charlie ensnared in an obsession with Garth, the school heart-throb - who, of course, is unaware of her existence. The story is wittily paralleled with the school production of **Romeo and Juliet**, including apposite quotations at appropriate moments. When Garth finally acknowledges her, Charlie sees his shallowness and turns, too late, to a far worthier man who has, by now, fallen in love with her best friend. His loss finally teaches her that there is far more to love than looks. Do I feel a sequel coming on?
