Another artist with an off beat and highly individual sense of humour is Janosch whose **See You in the Morning** appears for the first time in English. Snoddle is a hairy, canine-looking creature whose escapades are related in seven brief linked tales. Though primarily intended as a book for reading aloud, it also appears inviting for solo readers but those still relying to some extent on the pictures as cues to the text will not be helped by the fact that the two are sometimes out of sync.
