0

The eighth book no less to feature the lovable bear cub whose escapades continue to amuse young readers. The format is as before with the one or two short lines of large print opposite each illustration and the hero acting as narrator. Here, we share the alternately boisterous and tranquil moments of a typical fun-filled play session between father and son. Not the very best of the series but doubtless the playful pleasures depicted will strike a familiar note with many young readers.

Running Order:
