0

It's not a **Watership Down** and it does have an uncertain feel about its opening - attempting to place the reader within the life, feelings and surroundings of a group of foxes. But gradually the dramas of survival, against other creatures and man, create a page-turning energy which keep you going to the end. There's a wonderful moment where the animals unite to try and dig beneath the foundations of a dam.

Running Order:

45
