Fantasy readers who relish long, complex, challenging reads should have this one placed their way. The town of Loxely seems to have a hold over its citizens: none of them can actually sever bonds and leave. Now dark undercurrents and forces appear to be massing towards an inevitable destruction. The destined hero of the day should be Owen Fisher but he has no idea of his mission and is painfully slow to realise that, like all the others, he is '...trying to pull names and shapes out of the darkness ... in an attempt to make sense of it and the names are different for every person.'

Running Order:

30
