A faithful version of the well-known diary. The illustrations treat this most unusual of subjects for a picture book in a very sensitive manner. The subtle watercolours work very well, the tones reflecting the changing emotions in the text: the more desperate the position of the family, the more restricted the sombre greys and creams become. This book provides a means of introducing the holocaust to younger children in a nonthreatening way and will be a very useful text for the older, but less proficient, reader where the reading ability and interest level do not match.
